

*Some brewing companies are 'born out of a garage'.
Some brewing companies are 'formed by a group of mates having a beer'.
Not many are started as a result of a near fatal snake bite.*

Started in 2015 by Joel and John Drysdale, Venom has grown to be one of Victoria's favourite cult brewers. With six core range beers, and an interesting stable of limited releases, Venom Brewing offers quality, well priced beers to suit any venue.

Wandiligong, Victoria
www.alpinecider.com.au

Our modern Australian ciders are fresh and fruity.

Showcasing the apples we love, grown and hand-picked in our very own orchards. Located in the Alpine region of North East Victoria, we are in prime position to grow tasty, crisp apples and this is reflected in our range of ciders.

The best apples are grown in places with cold winters and sunny summers.
